

# Bookaneer Pirate Hook Instructions

## Supplies\*:

- Aluminum foil
- Scissors
- Red plastic cups
- Hot glue

## Directions:

1. Cut out a square piece of tin foil.
2. Roll up and mold the tin foil into a long thin piece.
3. Cut a small hole in the bottom of the cup, just large enough to squeeze the foil through.
4. Insert the foil through the hole, pull through, and twist into the shape of a hook. Put a small amount of hot glue around the hole to keep the hook in place. Make sure the glue is completely dry before allowing kids to wear.

\*Remember, these are only suggestions.  
This project should be fun and creative, so use  
supplies you have on hand for substitutions.
